

J Murphy Sheetmetal

“It’s all about service”

The team at J Murphy Sheetmetal... (from left) Peter Mitchell, Jim Murphy, owner Steve Snelling, Gino Pacquola and John McIntosh.

Since changing ownership six months ago J. Murphy Sheetmetal has continued its reputation in providing excellent customer service, quality workmanship and competitive pricing.

With the combination of sophisticated equipment like the C.N.C Brakepress and N.C. Guillotine along with a highly motivated, professional and experienced team J. Murphy Sheetmetal can cater for small one off jobs up to designing, fabricating and

installing full projects.

“We can supply an off-cut of material, do a simple cut and fold job right up to large project work, we pride our selves in catering for all our clients requirements,” said Steve.

“Our team has grown from Jim Murphy and myself to five employees now, including an apprentice. “Training of new trades-people will be so important to the future of our business,” Steve went on to say.

Steve would like to take

this opportunity in thanking all clients for their support throughout the ownership change of J. Murphy Sheetmetal, and looks forward to continuing to service their requirements.
