

Reliable, quality service...The professional team at Snelling Engineering are (from left) Jim Murphy, Gino Pacquola, Steve Snelling, John McIntosh and Ian Scott.

SERVICING ALL YOUR STEEL NEEDS

PROFESSIONAL advice, quality service and industry knowledge is what you can expect from the top team of professionals at Snelling Engineering.

Snelling Engineering provides a wide range of services such as pressing, guillotining, aluminium, stainless steel and general fabrication, sheetmetal fabrication and forming, on-site maintenance and installation and sheet steel sales from off-cuts to full sheets.

Steve and Sandra-Lee Snelling recently celebrated their first birthday since purchasing J. Murphy Sheetmetal from Jim and Mary Murphy almost a year ago.

In that time Steve and Sandra-Lee have diversified the business and have endeavoured to provide their clients with a full service for all their requirements. They have also changed the name from J. Murphy Sheetmetal, to Snelling Engineering.

"Snelling Engineering still has the same team of highly motivated, skilled and professional tradesman, and will continue offer the same excellent customer service and quality of workmanship that J. Murphy Sheetmetal provided," said Steve.

So for reliability, quality and service give Steve or Jim a call at Snelling Engineering, located at 27 Lockwood Road, Shepparton. **Ph: 5821 0776.**
